

Research Papers

Diagnosis and prognosis of melanoma from dermoscopy images using machine learning and deep learning: a systematic literature review

A survey, review, and future trends of skin lesion segmentation and classification

A comprehensive review of deep learning techniques for salt dome segmentation in seismic images

Chest X-ray Images for Lung Disease Detection Using Deep Learning Techniques: A Comprehensive Survey.

Convolutional neural network techniques for brain tumor classification (from 2015 to 2022): Review, challenges, and future perspectives

Comprehensive Review on MRI-Based Brain Tumor Segmentation: A Comparative Study from 2017 Onwards: Comprehensive Review

Recent deep learning-based brain tumor segmentation models using multi-modality magnetic resonance imaging: A prospective survey

Revolutionizing crop disease detection with computational deep learning: a comprehensive review

Flood detection with SAR: A review of techniques and datasets

A survey on recent trends in deep learning for nucleus segmentation from histopathology images

Remote sensing object detection in the deep learning era—a review

Yolo-based object detection models: A review and its applications

A systematic review of the use of Deep Learning in Satellite Imagery for Agriculture

A review of remote sensing image segmentation by deep learning methods

Advances in medical image segmentation: A comprehensive review of traditional, deep learning and hybrid approaches

The progression of transformers from language to vision to mot: A literature review on multi-object tracking with transformers

Understanding GANs: Fundamentals, variants, training challenges, applications, and open problems

Generative adversarial networks (GANs) in medical imaging: Advancements, applications, and challenges

A review of federated learning methods in heterogeneous scenarios

A review on machine learning and deep learning image-based plant disease classification for industrial farming systems

Conventional to deep ensemble methods for hyperspectral image classification: A comprehensive survey

Image Analysis in Autonomous Vehicles: A Review of the Latest AI Solutions and Their Comparison
